Data profiling:

Departments

SELECT * from Departments where head_doctor_id is null;

```
33459
33460 /* Departments data profiling */
33461
33462 • SELECT * from Departments where head_doctor_id is null;
33463
```

The screenshot shows a database interface with a toolbar at the top containing 'Result Grid', 'Filter Rows', 'Edit', 'Export/Import', and 'Wrap Cell Content'. Below the toolbar is a table with 5 columns: department_id, department_name, hospital_id, floor_number, and head_doctor_id. The table contains 14 rows of data, all with NULL values in the head_doctor_id column.

department_id	department_name	hospital_id	floor_number	head_doctor_id
D002	Emergency Medicine	H002	4	NULL
D005	Neurology	H004	5	NULL
